Bridges For Brain Injury Inc

Type: ROUTINE INSPECTION

Date: 29-AUG-2023

3.150(a)

Facilities, general.

The enclosure for the Eagle Owl needs to be addressed. The wooden platform off the shelter box is in disrepair with wood that is beginning to rot away and break down. Underneath the platform where the mesh meets the solid bottom wall, there are two screws that are exposed and protruding into the enclosure. These areas need to be addressed to keep the enclosure in good repair for the safety of the owl.

Correct by: Sept 6, 2023

This inspection and exit interview were conducted with a facility representative.
