There were no records of rabbits sold at time of this inspection. Records must be kept and maintained to help keep track of animals, to help assess the animal care program, and to document changes in ownership. Licensee must ensure that deposition records are kept and maintained for rabbits sold, died, or euthanized. Correct by July 10, 2021.

3.56(c)

Sanitation.

Housekeeping. There is a buildup of hair, feces, and old feed in the bottom four enclosures along the wall that are no longer in use. Animal facilities must be kept clean to ensure good quality of air for the animals and to prevent disease risks. Ineffective cleaning can expose the rabbits to disease hazards and health problems. Correct by ensuring premises are kept clean including empty enclosures to help support a level of general cleanliness and to support good animal husbandry. Correct by July 10, 2021.
