3.6(a)(2)(3)

PRIMARY ENCLOSURES.

At time of inspection one enclosure on the west wall with one adult dog had an enclosure door that was broken and not locking securely. This could allow dog to escape from enclosure. A new wire door needs to be added or the existing door needs to be repaired. All enclosures must be kept in good repair and contain the animal securely. To be corrected by 03-30-15

3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

At time of inspection open empty feed sacks were lying on the outside of the building next to the door. Accumulations of trash, junk, waste products, weeds & discarded matter around the premise can provide a living / breeding area for rodents, other pests & vermin. Keeping premises free of trash, junk, waste products, weeds & discarded matter is necessary to ensure the health & well-being of all dogs. To be corrected by 03-30-15.

An exit briefing was conducted with the facility representative.
