Site: 001
TIFFANY L VAN BLARICUM

Type: ROUTINE INSPECTION
Date: 19-SEP-2024

2.134

Contingency planning.

The facility has not developed and documented a contingency plan. A plan is important to be in place in preparation for unexpected disasters or events, especially when located in a region that encounters inclement weather seasonally. The contingency plan should include a detailed strategy to address the needed handling, treatment, transportation, housing, and care of the animals in the event of an emergency or disaster. The facility shall develop and document an appropriate contingency plan available for review upon USDA inspections.

Correct by September 28, 2024.

This inspection and exit interview were conducted with the licensee.
