Type: ROUTINE INSPECTION

Date: 07-FEB-2024

---

### 3.154

#### Environment enhancement to promote psychological well-being.

The licensee has not developed and documented an environmental enhancement plan to promote the psychological well-being of the birds housed at the facility. The licensee currently has a few parrots, emu, and a variety of species of poultry. They are providing varied perches, substrate to scratch in, varied foods, and forms of enrichment, but lack a written plan. Lack of an environmental enhancement plan does not ensure that adequate and appropriate measure to promote the psychological well-being of the birds are being provided. The licensee must develop, document and follow a species-appropriate plan that promotes the psychological well-being of the birds, and the plan must be approved by the attending veterinarian.

\*\*\*Correct by March 11th, 2024

This inspection and exit interview were conducted with the licensees.
