ALASKA AIRLINES  
P. O. BOX 68900  
SEATTLE, WA 98168

Customer ID: **1223**  
Certificate: **91-T-0001**  
Site: SFO  
ALASKA AIRLINES

Type: ROUTINE INSPECTION  
Date: 26-OCT-2021

---

### 3.14(c)

#### Consignments to carriers and intermediate handlers.

Three puppies arriving at SFO on Alaska Airlines flight 3494 in two shipping crates with waybill numbers 027-9029-3464 and 027-9029-2333 did not have a Consignor's Certification statement regarding feeding and watering. There was no info regarding when the puppies were last offered food and water, when they should be fed and watered again, and no signature from the consignor with time and date.

Failure to provide feeding and watering instructions clearly displayed on the crate could result in inadequate care for the puppies especially in the event of delays in transit. Airline must ensure that these requirements are met at the time that the animals are accepted for transport.

### 3.15(c)(1)(iii)

#### Primary enclosures used to transport live dogs and cats.

Three puppies arriving at SFO on Alaska Airlines flight 3494 in two shipping crates with waybill numbers 027-9029-3464 and 027-9029-2333 were inspected in the cargo office. It was found that tape used to attach items to the top of the crates was covering nearly half of the ventilation openings on the sides of the crates.

## Inspection Report

---

When accepting animals for transport, the airline must ensure that the enclosures have adequate ventilation, and that ventilation openings are not obstructed. Failure to do so could result in harm to the animals.

This inspection and exit interview were conducted with airline representatives in the cargo office.
