ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The attending veterinarian has not visited this new location. The ferret was last vaccinated for distemper on 8/14/12 and Rabies on 7/28/11. The program of veterinary care indicates that the ferret is to be vaccinated yearly for distemper and every 3 yrs. against rabies. The opossum, prairie dog, & hedgehogs have not received their yearly fecal exams as indicated on the program of veterinary care.

All procedures and testing shall be performed as indicated on your program of veterinary care.

Correct by November 15, 2014

3.25

FACILITIES, GENERAL.

On September 21, 2013, the licensee's dog "Panda" got through 2 baby gates and into the indoor animal area, gained access to the guinea pig enclosure, and caused the death of one guinea pig.

All housing facilities shall restrict the entrance of other animals at all times to protect the animal from injury.

Correct by October 18, 2014

3.127(d)

FACILITIES, OUTDOOR.

The facility has a chain link perimeter fence around the outdoor enclosures, but this fence is not 6 feet high. A corner portion of the cavy enclosure is also not 3 feet from the perimeter fence. A complete 6 foot perimeter fence is required, and all enclosures must be at least 3 feet from the perimeter fence.

Inspection Report

The licensee has moved from her previous location 3 days ago. This inspection is being conducted at her new location. The above non compliant items must be corrected before this location will be approved. Due to the fact that all animals are now being housed at this new location, you may not conduct any regulated activity until such time when all regulations and standards are compliant at this location and it is approved to conduct regulated activity.

When all of the above are corrected please contact this inspector to arrange for another inspection.

The exit interview was conducted with the licensee.
