### 2.33(b)(3)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

According to facility records, 3/23/2017 and 3/24/2017, the animal care staff noticed that donkeys #44 and #45 were lethargic and experienced a drop in feed consumption. There was documentation regarding the animals' health statuses, however, there was no record of the veterinarian being notified and administering a treatment plan for the animals. Facility must ensure that there is direct and frequent communication with the attending veterinarian regarding the health and well-being of the study animals.

TO BE CORRECTED BY: From this time forward.

This inspection and exit interview were conducted with facility representative.
