### 2.40(a)(2)

#### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

Goats have not been added to the Program of Veterinary Care by the Attending Veterinarian. This doesn't ensure that the Attending Veterinarian has been given the appropriate authority to determine if provisions are in place and available for the new species acquired. The Attending Veterinarian must review the Program of Veterinary Care and ensure all species being cared for by the licensee are listed on the Program of Veterinary Care.

Correct by 7/6/22.

This inspection and exit interview were conducted with the Facility Representative.

End of report.
