3.12

EMPLOYEES.

Sec. 3.12 Employees.

Currently there is one part time permanent employee responsible for supervising the daily husbandry and post procedural care of the resident animals. The remainder of the time veterinary technician students with varying degrees of experience are responsible for these duties. Relying on untrained students to adequately observe and care for animals that may have had invasive procedures is irresponsible. There must be an increase in the amount of time the animal area is supervised by an individual with knowledge, background, and experience in post procedure care and husbandry of dogs and cats.

To be corrected by: April 1, 2014

Inspection and exit interview conducted with the licensee.
