FACILITIES, GENERAL.

Structural strength. The food storage room has holes along the bottom of the walls. Housing facilities must be structurally sound and maintained in good repair to protect guinea pigs from injury and to restrict the entrance of other animals such as rodents. Rodents such as mice can contaminate animal feed and expose the guinea pigs to disease risks. The holes along the walls in the food storage room must be repaired to restrict the entrance of rodents and other pests. Correct by October 10, 2019.

This inspection and exit interview were conducted with the owner's wife.
