Customer ID: **29359**

Certificate: **23-C-0249**

Site: 001

LEHIGH VALLEY ZOOLOGICAL SOCIETY

Type: ROUTINE INSPECTION

Date: 12-FEB-2020

### 2.8

#### NOTIFICATION OF CHANGE OF NAME, ADDRESS, CONTROL, OR OWNERSHIP OF BUSINESS.

The Chief Executive Officer (CEO) and the General Curator both left the facility in 2019. An interim CEO and interim Curator have since been named but APHIS was not notified of the changes.

Any change in name, address, management, or ownership of a licensed facility requires notification to the AC Regional Director via certified mail within 10 days of the change.

Correct by sending notification of the changes in management via certified mail to:

USDA-APHIS-Animal Care  
Attn: AC Regional Director  
2150 Centre Ave  
Building B, 3W11  
Fort Collins, CO 80526

Correct by February 20, 2020.

### 3.80(a)(1)

#### PRIMARY ENCLOSURES.

The enclosure housing the two mongoose lemurs has several areas on the walls where the white paint has been scraped off and the blue coat underneath is exposed. These areas of missing paint are within two feet of the ground and therefore accessible to the animals. Similarly, there is a door within the enclosure in which the white paint has also been scraped off to reveal a brown surface beneath it.

Primary enclosures for nonhuman primates must be structurally sound and maintained in good repair. Flaking or peeling paint can present a health hazard to the animals if ingested as well as make sanitation of the enclosure difficult to achieve.

Prepared By: CARLSON MELISSA, D V M USDA, APHIS, Animal Care
