2774 Loker Avenue West
Carlsbad, CA 92010

Customer ID: **25560**

Certificate: **93-R-0498**

Site: 003

SYNTRON BIORESEARCH, INC.

Type: ROUTINE INSPECTION

Date: 15-JUL-2015

3.51(d)

FACILITIES, INDOOR.

At least one rabbit enclosure is moderately covered in rust. The presence of rust may prevent the required cleaning and sanitizing of the enclosures, which may adversely affect the health and well-being of the animals.

The facility is currently replacing rabbit primary enclosures, food receptacles, wood beams, and other structures. It was noted that one barn has been completed and a second barn had one row of enclosures replaced.

The interior building surfaces of indoor housing facilities shall be constructed and maintained so that they are substantially impervious to moisture and may be readily sanitized.

To be corrected by January 1, 2016

An exit briefing was conducted with a facility representative.

This was a focused inspection of the animal facility.

Accompanied on inspection by Dr. Tyler Fields, Veterinary Medical Officer

Additional Inspectors

Fields Tyler, Veterinary Medical Officer
