FRAGILE PLANET WILDLIFE FOUNDATION

Type: ROUTINE INSPECTION
Date: 16-NOV-2015

3.75(c)(1)

HOUSING FACILITIES, GENERAL.

*** The wood support braces and platforms on the inside of the lemur enclosure need to be sealed so that the enclosure can be cleaned and sanitized on a routine basis. This needs to be addressed to facilitate cleaning and reduce disease hazards.

Correct by: Dec 1, 2015

3.129(a)

FEEDING.

*** The diet for the bobcat, ocelot and lynx is beef or chicken with bones. In addition the diet states the animals will receive Oasis supplement when fed beef at least three times a week and this is what is approved by the attending vet. The facility did not have any supplement on hand and had been out for a week. This supplement needs to be acquired and used as directed to meet their nutritive needs to maintain the animals in good health.

Correct by: Nov 20, 2015

An exit briefing was conducted with the licensee at the time of the inspection.
