Type: ROUTINE INSPECTION
Date: 28-MAR-2016

3.127(d)

FACILITIES, OUTDOOR.

This is a new site inspection as the licensee moved. At this new location, the licensee has built an outdoor area for the animals to exercise consisting of a covered pen. A 6 foot perimeter fence is around 3 sides of this pen. On the forth side the animal pen is placed directly against the back deck - not three feet away- and there is no fence barrier under the deck next to the animal pen. The licensee needs to fence under the deck and have the exercise pen at least 3 feet away from the perimeter fence or request a perimeter fence variance.

This is a pre-use site inspection for a new location.

No regulated activity allowed until above item is corrected and there are no other non-compliant items.

Exit briefing conducted with licensee.
