

Inspection Report

OSPREY WILDS ENVIRONMENTAL LEARNING CENTER
P O BOX 530
SANDSTONE, MN 55072

Customer ID: **326366**

Certificate: **41-C-0251**

Site: 001

Osprey Wilds Environmental
Learning Center

Type: ROUTINE INSPECTION

Date: 28-FEB-2024

3.127(d)

Facilities, outdoor.

There is a 6 foot perimeter fence around the porcupine enclosure except for the area of the gate. The existing gate is less than 6 feet in height. Lack of a complete 6 foot high perimeter fence does not prevent unauthorized people or unwanted animals from having access to the animals housed within. Also lack of a complete perimeter fence cannot function as a secondary containment system. The porcupine enclosure must be completely surrounded by a perimeter fence not less than 6 feet in height. Correct by May 31, 2024.

3.154

Environment enhancement to promote psychological well-being.

The licensee has not developed and documented an environmental enhancement plan to promote the psychological well-being of the birds housed at the facility. Lack of an environmental enhancement plan does not ensure that adequate and appropriate measures to promote the psychological well-being of the birds are being provided. The licensee must develop, document and follow an environmental enhancement plan that promotes the psychological well-being of the birds. The plan must also be approved by the Attending Veterinarian. Correct by April 1, 2024.

This inspection and exit interview were conducted with Facility Representative.
