Requirements and procedures.

On June 22, 2023, approximately at 3:05am, the international Caribbean Airlines Cargo Flight BW 792, originating from Trinidad & Tobago, Piarco International Airport (POS) arrived at Miami International Airport (MIA) with a shipment of 56 USDA regulated non-human primates (NHP); pallets containing the NHP enclosures were unloaded from aircraft next to Building 712 where a USDA-registered animal intermediate handler received, and lawfully assumed custody of the animals.

Air carriers not required to be licensed under section 3 of the Animal Welfare Act and its regulations, must register with the USDA Secretary by completing and filing a properly executed form which will be furnished by this inspector, or upon request by the air carrier. The registration form must be filed with the USDA-APHIS-Animal Care Deputy Administrator for the State in which the air carrier has his/her principal place of business, and must be updated every 3 years by the completion and filing of a new registration form which will be provided by the USDA-APHIS-Animal Care Deputy Administrator.

Conducting regulated activities without a valid USDA Registration Certificate is a violation of the Animal Welfare Act.

This inspection and exit interview were conducted with a facility representative.
