

Inspection Report

Arlene L Koehn
2625 E. 20th St
Burns, KS 66840

Customer ID: **4900**
Certificate: **48-A-1189**
Site: 001
Arlene Koehn

Type: ROUTINE INSPECTION
Date: 13-JUL-2015

3.1(c)(1)(1)

HOUSING FACILITIES, GENERAL.

One metal self-feeder is rusted through in the bottom. One lower metal support pipe in one enclosure in the west side of the kennel is rusted to the point that sections are missing. Rusted surfaces cannot be adequately cleaned and sanitized and can affect the structural strength of the material. All surfaces must be constructed in a manner that allows them to be readily cleaned and sanitized and remain structurally sound. Correct by 13 Aug. 2015.

3.1(c)(1)(2)

HOUSING FACILITIES, GENERAL.

There are wire points sticking into two dog enclosures at the height of the dogs. Wire points could cause injury to the dogs. All surfaces of housing facilities must be constructed in manner that are free from sharp points that might injure the dogs. Correct by 20 July 2015.

This routine inspection and exit interview were conducted with a facility representative, Robert Bacon, ACI and Kendall Lundy, ACI.

Additional Inspectors

Bacon Robert, Animal Care Inspector

Prepared By: KENDALL LUNDY, A C I USDA, APHIS, Animal Care
