Maestro Cargo International LLC

Type: ROUTINE INSPECTION
Date: 26-JUL-2021

2.25(a)

Requirements and procedures.

The company, acting as an intermediate handler for air carriers at the Chicago O'Hare International Airport, was found to be operating and transporting regulated animals without a valid USDA certificate/registration. On July 5, 2021, the company transported and received a dog at the cargo facility. Conducting regulated activities without a valid registration does not allow for compliance inspections, assuring the company is compliant with the regulations and standards of the Act. The intermediate handler must obtain a registration by completing and filing a properly executed registration form. A link to the online registration form was provided to the facility representative.

This inspection and exit interview were conducted with the facility representative.
