Type: ROUTINE INSPECTION
Date: 14-NOV-2016

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The male, white-tailed deer named "Duke" has been treated for a congenital mouth condition for years. However, during this inspection, a lump the size of a tennis ball was observed on his lower, left jaw. According to the keeper, this lump was observed to be much smaller a few days ago but has now increased in size. This deer must be seen by the attending veterinarian to determine what is causing the swelling and address the issue.

TO BE CORRECTED BY: NOVEMBER 18, 2016

This inspection and exit briefing were conducted with the facility representatives.
