Customer ID: **328291**

Certificate: **92-R-0039**

Site: 002

CENTRAL OREGON COMMUNITY COLLEGE

Type: ROUTINE INSPECTION

Date: 17-SEP-2015

No animals were present at the time of inspection.

No non-compliant items were identified during this inspection.

The inspection and the exit interview were conducted with facility representatives.

Note: There are cracks in the floor of the wet lab/teaching area that need to be repaired before animals are used in the area. Surfaces need to be non-porous and able to be readily cleaned and sanitized. Also, improved pest control measures need to be implemented before the facility is used for animals - there have been wild birds accessing the main animal area, and there are dead flies on the floor of the surgery room.
