CROWE'S NEST FARM, INC.

Type: ROUTINE INSPECTION

Date: 02-MAY-2022

3.125(a)

Facilities, general.

The outdoor housing of 2 adult South American coati is not kept in good repair. The platform of an elevated wooden resting surface is detached from one of the corners and has created a gap where the animals' feet or tail can get stuck. In addition, the wire mesh fence on one side of the enclosure has come off creating an opening big enough that the animals' nose and even face can fit through. These deficiencies can cause injury to the animal and an animal can potentially escape its enclosure. Indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

To be corrected by May 23rd, 2022

3.127(d)

Facilities, outdoor.

The perimeter fence surrounding the primary enclosures of 1 Virginia opossum, 1 ringtail and 1 North American porcupine is not 6 feet tall. Any perimeter fence less than 6 feet high for non-dangerous animals must be approved in writing by Administrator. A perimeter fence serves as a secondary containment system for the animals in the facility. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from
