11453 Turner Bridge Rd
Tuscaloosa, AL 35406

Customer ID: **330062**
Certificate: **64-C-0224**
Site: 001
DANIEL COMBS

Type: FOCUSED INSPECTION
Date: 08-NOV-2016

3.125(a) REPEAT

FACILITIES, GENERAL.

** In the upper pen there was orange hay bale twine on the ground within the goats enclosure that could possibly be ingested. Towards the far left end of this pen the top barbed wire strand was not completely attached to the top of the fencing. Also there were several areas at the bottom of the fencing that were buckling and gathering. The animals could potentially get their hooves caught if they were to step into it. All of the enclosures should be constructed to prevent injury of the animals including the materials used for the fencing and keeping it in good repair.

This inspection and exit interview were conducted with owner.
