Type: ROUTINE INSPECTION  
Date: 15-JUL-2024

---

### 2.1(b)(2)(i)

#### Requirements and application

The licensee is authorized to have a maximum of 350 animals on hand. The count at the inspection was 417 animals. No more than 350 total animals can be held at the facility under the current license. Licenses are authorized for the a specific number of animals and exceeding those numbers can increase the likelihood of welfare concerns due to the higher population of animals and the associated maintenance and cleaning requirements. The licensee must reduce the animal population at the facility to 350 or fewer or apply to increase the authorized number of animals. Correct by August 31, 2024.

This inspection and exit interview were conducted with Facility Representatives.
