Larkspur, CO 80118

Customer ID: **500793**
Certificate: **84-C-0162**
Site: 001
ZOOLOGICAL FOUNDATION

Type: ROUTINE INSPECTION
Date: 13-SEP-2017

3.1(c)(1)

HOUSING FACILITIES, GENERAL.

One of the large litter pan for the 9 adult cats located inside the zoo building is broken along the front with ripped, jagged edges. These ripped, jagged edges do not allow the surfaces to be properly cleaned, sanitized and not in good repair. Ensure that all surfaces within the facility are constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled.

To be corrected by: September 21, 2017

3.125(a)

FACILITIES, GENERAL.

One of the plastic fence post along the front of the zoological pasture housing 13 alpaca, 2 llama and 7 angora goat is broken along the top. The broken plastic fence post has jagged sharp edges that the animals could potentially get injured. Maintain the indoor and outdoor facilities so that they are in good repair to protect the animals.

To be corrected by: September 21, 2017

3.127(a)

FACILITIES, OUTDOOR.

There is inadequate shade inside the enclosure housing one adult pig named "Magnum P.I.G.". The only shade that was observed was a small area next to the shelter. There was no other areas inside the enclosure for this animal to protect itself from the direct sunlight throughout the day. Adequate shade needs to be provided so that the animal does not become uncomfortable, distressed or overheated. Provide sufficient shade so that it allows all animals housed outdoors to be protected from the direct sunlight.

To be corrected by: September 20, 2017

This inspection and exit briefing were conducted with the Sanctuary Manager
