

## Inspection Report

Vicki Deseive  
87747 North Carberry Street  
Atkinson, NE 68713

Customer ID: **28333**  
Certificate: **47-A-0518**  
Site: 001  
VICKI DESEIVE

Type: ROUTINE INSPECTION  
Date: 11-AUG-2015

### 3.1(c)(2)

#### HOUSING FACILITIES, GENERAL.

Inside the sheltered building there are four enclosures with painted wood supports in one corner that are excessively chewed and roughened and exposes the underlying bare wood. There is also one enclosure with plastic paneling covering one wall that has been chewed and has a large portion torn away that also exposes the underlying wood. One plastic feed bowl is also excessively chewed to the point there is a hole in it.

Chewed, roughened surfaces cannot be readily cleaned and sanitized to prevent disease hazards, and bare wooden surfaces are no longer impervious to moisture.

The licensee must ensure that all surfaces are maintained on a regular basis. All surfaces that cannot be readily cleaned and sanitized must be repaired or replaced when worn or soiled.

To be corrected by August 28, 2015

### 3.1(c)(3)

#### HOUSING FACILITIES, GENERAL.

Inside the sheltered building a majority of the enclosure walls have brown colored grime covering at least thirty percent of the surfaces.

Dirty, grimy surfaces can cause disease hazards.

The licensee must ensure that all surfaces with which the dogs come in contact must be spot-cleaned daily and sanitized in accordance with 3.11 (b) of this subpart to prevent an accumulation of excreta and reduce disease hazards.

To be corrected from this day forward
