Date: 22-SEP-2015

---

### 3.129(a) DIRECT

#### FEEDING.

No containers for the food were observed in the 1 tiger, 2 bears, and 2 lions, enclosures. The floor appear with a heavy accumulation of feces and food waste, the food is given to this animals directly in the floor for which reason this food is contaminated with feces that are there for weeks, also an awful smell is coming from this enclosures.

The food shall be wholesome palatable, and free from contamination to prevent parasites and other illnesses to affect the animals, also to be sure the animals eat a sufficient quantity of the food.

This situation must be corrected in order to minimize contamination of the food received by the animals.

Correct by: immediately.

### 3.130 DIRECT REPEAT

#### WATERING.

A tiger the name Quincy was found with no water available in his enclosure, also no water was available for the 2 black bears and 2 wolves in their enclosures. When the bears were offered water they licked the hose and drank eagerly, also few minutes later already they had drunk all the water, after add water to the tiger, it come to drink immediately.

If potable water is not accessible to the animals at all times, it must be provided as often as necessary for the health and comfort of the animal. Frequency of watering shall consider age, species, condition, size, and type of the animal.

No access to the water in the high temperatures of the summer can induce dehydration of the animals.

Correct by: Remains uncorrected.

## Inspection Report

---

### **SANITATION.**

The enclosures containing 1 tiger, 2 Lions and 2 Bears had a heavy accumulation of feces and food waste. The facility apparently has not been cleaned for weeks, also an awful smell is perceived in this enclosures.

Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors.

Accumulation of feces and food waste can attract pests, insects and other wildlife that can transmit infections and parasites with the subsequent risk to the health and wellbeing of the regulated animals.

Correct by: Remains uncorrected.

Inspection and exit interview conducted with a facility representative.
