Bobbi Hill  
Route 1, Box 53 C  
Glenwood, MO 63541

Customer ID: 321746  
Certificate: 43-A-5527  
Site: 001  
BOBBI HILL

Type: ROUTINE INSPECTION  
Date: 02-JUN-2014

### 3.1(f)

#### HOUSING FACILITIES, GENERAL.

(f) Drainage and waste disposal.

\*\*\*\*

There is a drainage pipe from the elevated outdoor enclosures that discharges approximately 4 - 6 feet from and enclosure housing 1 adult dog. This discharge contains fecal material, old bedding and other organic material. There are a high number of flies present. This old bedding, fecal material and other material can attract pests and rodents which could transmit diseases to the animals. The licensee must remove the old bedding, fecal material and other organic material from the affected area and extend the drainage system so that it is far enough away from the animal area of the housing facility to prevent odors, diseases, pests, and vermin infestation. The licensee must develop and maintain a functioning system of waste removal so as the animals are not exposed to the affects of the waste by pest, vermin or odors.

To be corrected by: 3 June 2014

### 3.6(a)(2)(9)

#### PRIMARY ENCLOSURES.

Cleaning of primary enclosure

\*\*\*\*

In an outdoor enclosure, housing 1 adult dog, there is an accumulation of old compacted bedding and dirt on the floor of the shelter. This accumulated material can harbor pests that can transmit diseases to the dog. The licensee must remove this old bedding and clean and sanitize this shelter. The licensee must develop and maintain a program that ensures all surfaces in contact with the dogs can be readily cleaned and sanitized in accordance with Sec. 3.11(b) of this subpart, or be replaceable when worn or soiled.

To be corrected by: 3 June 2014.

Inspection and exit interview conducted with licensee. The veterinary care issues identified during the previous inspection have been addressed.
