Certificate: **86-B-0064**
Site: 002
REPTILES & REEFS

Type: ROUTINE INSPECTION
Date: 17-NOV-2016

3.131(a)

SANITATION.

***In 28 enclosures, housing 40 hedgehogs, there was an excessive accumulation of feces present on the enclosure bottoms. Additionally, the APHIS VMO noted an excessive amount of flies and fly larvae present in the enclosures and an overwhelming odor. Animal enclosures must be cleaned routinely in order to provide for appropriate animal husbandry standards, to reduce disease transmission, and to prevent the animals from becoming contaminated or soiled. The licensee must clean these enclosures and ensure that all enclosures housing animals are cleaned as often as necessary to promote appropriate husbandry standards.
To be corrected by 11/22/16

This inspection and exit interview were conducted with the licensee.
