2.31(b)(3)

Institutional Animal Care and Use Committee (IACUC).

Thirteen IACUC meetings minutes were provided to USDA since the last inspection on November 13, 2020. Of those thirteen meetings, eleven had IACUC activity requiring a quorum for voting to occur, where the Attending Veterinarian was only in attendance for two of those eleven meetings and the nonaffiliated member has only attended four of those eleven meetings. Representation from the veterinarian, who has direct and delegated program responsibilities for activities involving animals, and the nonaffiliated member, who represents the general community interests, is vital to having a fully functioning IACUC. A veterinarian and a nonaffiliated member shall be regularly attending members of IACUC functions so the IACUC can perform its mandate of assessing the research facility's animal program, facilities, and procedures.

MUST BE CORRECTED BY: JUNE 1, 2022

This inspection and exit interview were conducted with a facility representative.
