CENTER

Type: ROUTINE INSPECTION

Date: 17-MAR-2023

2.75(b)(1)

Records: Dealers and exhibitors.

During the review of paperwork and records it was noted that the acquisition records were incomplete. All of the required information for whom the animals were purchased from or otherwise acquired was unavailable at the time of inspection.

Appropriate documentation of acquired regulated animals is essential for proper identification, tracing forward and trace back of the animals.

The licensee must correctly document records of acquisition for all regulated animals, including animals born on the premises, and assure that all records are kept as required.

To be corrected by March 31, 2023.

This inspection and exit interview were conducted with a facility representative.
