SIERRA NEVADA ZOOLOGICAL
SOCIETY

Type: ROUTINE INSPECTION

Date: 19-MAY-2022

3.80(a)(2)(x)

Primary enclosures.

In the outdoor enclosure for the ringtail lemurs on the end closest to the building, there were holes in the decomposed granite that extended below the dig barrier. These holes pose an entrapment hazard for the two ringtail lemurs housed in the enclosure. The floors of nonhuman primate enclosures shall be constructed and maintained in a manner that protects the nonhuman primates from injuring themselves.

Correct by 10 June 2022

This inspection and exit interview were conducted with the managers.

Additional Inspectors:

William Campbell, VETERINARY MEDICAL OFFICER
