GRADUATE STUDIES

Type: FOCUSED INSPECTION

Date: 16-SEP-2022

2.31(d)(1)(i)

Institutional Animal Care and Use Committee (IACUC).

**During a review of Protocol LA18-0015, no mention was made indicating if the activity had the potential to cause more than momentary pain and/or distress in order to allow the IACUC to ensure the PI had considered if the proposed activities had the potential for pain and/or distress and if so what alternatives might be available. Proposed activities should include a consideration for procedures that have the potential for pain and/or distress and the means to avoid or minimize the discomfort, pain and distress to the animals. It is the responsibility of the IACUC during the review of proposed activities to ensure the principal investigator has taken into consideration any procedures or activities that have the potential to cause more than momentary pain and/or distress to the animals and provide consideration to possible alternatives to such procedures.

Correct by September 30, 2022

2.31(e)(5)

Institutional Animal Care and Use Committee (IACUC).

** No method of euthanasia was listed in Protocol LA18-0015. A method of euthanasia should be considered by the principal investigator for any proposed activities or procedures involving the use of animals. The IACUC should complete the review of proposed activities to include an appropriate method of euthanasia to be utilized to ensure a humane
