

## Inspection Report

---

CALUSA NATURE CENTER AND PLANETARIUM  
3450 ORTIZ AVENUE  
FT MYERS, FL 33905

Customer ID: **2977**

Certificate: **58-C-1210**

Site: 001

CALUSA NATURE CENTER AND  
PLANETARIUM

Type: ROUTINE INSPECTION

Date: 19-OCT-2021

---

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

During the review of paperwork and records it was noted that the acquisition records were incomplete. All of the required information for whom the animals were purchased from or otherwise acquired was unavailable at the time of inspection.

Appropriate documentation of acquired regulated animals is essential for proper identification, tracing forward and trace back of the animals.

The licensee must correctly document records of acquisition for all regulated animals, including animals born on the premises, and assure that all records are kept as required. To be corrected by October 27, 2021.

### 3.125(a)

#### Facilities, general.

The inner wire panels on the western side of the raccoon enclosure are not tightly secured and bow in, creating gaps running vertically up the wall up to 4 inches wide.

Gaps in the wire panels can result in entrapment or injury of the animal.

OFFICER

Received by Title: Facility Representative

Date:

20-OCT-2021

## Inspection Report

---

The indoor and outdoor facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. To be corrected by November 03, 2021.

This inspection and exit interview were conducted with a facility representative.
