Type: ROUTINE INSPECTION
Date: 17-AUG-2023

2.75(b)(1) Repeat

Records: Dealers and exhibitors.

Records showing the date the deer are received or when offspring are born and where they are coming from are not being kept for the deer. Not documenting the required acquisition information for the deer doesn't allow for the proper tracking of the animals by APHIS officials. All acquisition information must be documented for all regulated animals.

2.134(a)

Contingency planning.

The licensee does not have a contingency plan in place. Not having a contingency plan in place doesn't ensure the animals will be taken care of in times of an emergency or natural disaster. The licensee must get a contingency plan put in place. Correct by 9/17/23.

This inspection and exit interview were conducted with the licensee.

End of report.
