#### Environment enhancement to promote psychological well-being.

The facility does not have an environmental enhancement plan for birds. This plan is necessary to ensure the psychological well-being and health of the animals. The facility must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations and with currently accepted professional standards as cited in appropriate professional journals or reference guides. This plan must be made available to APHIS upon request. Correct by February 29, 2024.

This inspection and exit interview were conducted with a facility representative.
