Hardinsburg, IN 47125

Customer ID: **504882**
Certificate: **32-A-0976**
Site: 002
Patty Talcott Mike Talcott

Type: RE-LICENSE INSPECTION
Date: 15-JUL-2025

3.1(c)(1)

Housing facilities, general.

There are multiple areas of rust in the primary enclosures, as well as several trim boards that have been chewed exposing bare wood in some enclosures. Rust and bare wood cannot be effectively cleaned and sanitized, exposing the animals to disease hazards. The surfaces of housing facilities must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized.

3.1(c)(3)

Housing facilities, general.

Dust, fly strike, cob webs, dead flies, mouse droppings and other organic debris has accumulated on various surfaces within the housing facility. Such accumulations may harbor disease hazards. All surfaces of housing facilities must be cleaned and sanitized when necessary to satisfy generally accepted husbandry standards and practices.

3.6(a)

Primary enclosures.

The exercise yard contains piles of discarded and stored items, such as firewood, cement blocks, and other various miscellaneous items. The vegetation in the yard is approximately 12 inches tall or more, so not everything can be readily seen. Such materials are an injury risk to the dogs. The exercise yard must be designed and constructed of suitable materials so it is structurally sound, kept in good repair, and protects the animals from injury.

This is a 1st re-license inspection for a Class "A" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by September 13, 2025, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
