3.127(d)

Facilities, outdoor.

A section of the perimeter fence is not six feet tall. The perimeter fence line adjacent to the building housing three servals has one section of fence that is approximately six feet wide and approximately four to five feet tall. Additionally, this section of fence could allow unauthorized persons and animals through as it was previously used as a cattle feeding fence. Ensure the perimeter fence is at least six feet tall and is constructed to restrict animals and unauthorized persons from going under or through it.

3.131(a)

Sanitation.

The ringtail pen contained excessive feces. Feces can cause odors and harbor diseases that affect animals. Clean the ringtail pen and repeat often enough to prevent excessive accumulations of feces.
