DURHAM, NH 03824

Customer ID: **167**
Certificate: **12-R-0003**
Site: 001
ANIMAL RESOURCES OFFICE

Type: ROUTINE INSPECTION
Date: 26-JAN-2023

2.33(b)(2)

Attending veterinarian and adequate veterinary care.

The controlled drug storage contained an expired bottle of euthasol (expired 11/22) and an expired bottle of buprenorphine (expired 01/03/23). Drugs used for regulated species must be used prior to the expiration date to ensure efficacy. The facility must ensure that appropriate methods of treatment are used for veterinary care.

Corrected at time of inspection.

3.130

Watering.

The automatic waterers for the dry-off barn contained an excess amount of feed, green filamentous, and sludge-like material on the interior surfaces of the receptacles. Contaminated water can lead to disease and adverse effects for the cows housed in the barn. Water receptacles must be kept clean and sanitary to provide potable water to all animals.

Correct by 1/27/2023.

This inspection and exit interview were conducted with facility representative.
