

Inspection Report

Columbus Zoo & Aquarium
P.O. BOX 400
POWELL, OH 43065

Customer ID: **2204**
Certificate: **31-C-0042**
Site: 001
COLUMBUS ZOO

Type: ROUTINE INSPECTION
Date: 12-DEC-2023

3.125(a)

Facilities, general.

In the giraffe barn a water dispenser has a sharp edge and there is a rusty mineral block holder. The water dispenser is damaged with a chip on the side measuring approximately 3 inches long by one inch high. The chip contained a sharp edge that is accessible to the animals. The mineral block holder has large amounts of rust and is also accessible to the animals. Due to the tactile nature of a giraffe's tongue, sharp edges could predispose them to injury and rust could be ingested by the animal and does not allow for proper sanitation of the surface. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury. Correct by ensuring housing facilities are structurally sound and maintained in good repair. Correct by 1-January-2024.

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors:

ANDREA D AMBROSIO, ANIMAL CARE INSPECTOR

Lauren Murphy, VETERINARY MEDICAL OFFICER
