Type: ROUTINE INSPECTION
Date: 08-JAN-2020

2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Male Chihuahua "Rocky" has poor dental health. Nearly half of the surface of the upper left canine tooth and nearly the entire surface of the upper left cheek teeth are encased in a thick buildup of dark brown tartar. The upper left cheek teeth are loose and moved freely when the inspector applied gentle pressure to them. The gums appeared slightly reddened. At the time of the inspection, this dog has not been evaluated by a licensed veterinarian and no treatment plan has been established. Poor dental health could cause pain and discomfort to the animal as well as lead to further health issues.

The licensee must have this dog evaluated by a licensed veterinarian for a proper diagnosis and to establish an effective treatment plan. The facility must ensure all dogs receive adequate veterinary care at all times.

To be corrected by: End of business on January 10, 2020

This inspection and exit interview were conducted with ACI Kelly Maxwell and the facility representative.
