Certificate: **42-C-0220**

Site: 001

MONROE COUNTY CONSERVATION

Type: ROUTINE INSPECTION

Date: 01-DEC-2014

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

At the time of inspection the licensee does not have a written Program of Veterinary Care with a veterinarian for the care of the animals. When the Program of Veterinary Care is not filled out, information on how the licensee provides for the health and well being of the animals on the premise is not recorded. The licensee shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the facility where the animals are located. Consult with the attending veterinarian to complete a written program of veterinary care to include all animals held by the facility and to accurately reflect the veterinary care needed for the animals. The Program of Veterinary Care must be completely filled out and must be made available at the inspector's request at the time of facility inspection. To be corrected by: December 22, 2014.

### 2.75(b)(1)

#### RECORDS: DEALERS AND EXHIBITORS.

Current animal records are not available for review at the time of inspection. While few older records are available, there are no current records for the animals on hand. Complete and accurate records are needed to ensure each animal's identity can be known with certainty and to facilitate the ability to trace the animals. A system should be in place to ensure that complete acquisition and disposition records, including animals born at the facility, are maintained and made available for examination by APHIS officials. To be corrected by: December 22, 2014.

Exit interview conducted with facility representative.
