DEER FOREST EXOTIC ANIMAL SANCTUARY

Type: ROUTINE INSPECTION

Date: 25-JUN-2014

3.58(a)

CLASSIFICATION AND SEPARATION.

The rabbit has been moved to the enclosure with the two cavy.

Rabbits shall not be housed in the same primary enclosure with any other species of animals unless required for scientific reasons.

Ensure that the rabbit is in an enclosure by itself or with other rabbits only for its health and well-being.

3.129(a) REPEAT

FEEDING.

The cavy diet consists of one day of pig feed and one day of rabbit pellet. This diet for the cavy has not been recommended by the attending veterinarian. The attending veterinarian will deliver his dietary recommendations on 26JUNE14.

The food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain all animals in good health.

Provide all animals with a sufficient amount of appropriate food and hay daily to maintain the health of the animals.

This was a focused inspection on the feeding of the deer and cavy, and the primary enclosure for the rabbit.

Additional Inspectors
