Type: ROUTINE INSPECTION
Date: 21-AUG-2025

2.1(b)(2)(ii)

Requirements and application

At the time of inspection, the licensee was exhibiting 2 fennec foxes. The licensee does not have a license authorizing the the exhibition of wild/exotic canids. Licenses authorizing the use of specific species types are issued based upon successful passing of a pre-licensing or re-licensing inspection to verify that the licensee is presently equipped and able to provide the appropriate husbandry and veterinary care for the regulated species used for selling, breeding, and exhibition.

The licensee must remove the fennec fox from exhibition, until a new license is obtained which authorizes the use of wild/exotic canids.

Corrected on 9/27/25: Fennec foxes were moved off exhibit. NOTE: A re-license inspection is pending.

This inspection and exit interview were conducted with the facility representative and licensee.
