

## Inspection Report

Discovery Place Nature

301 North Tryon St  
Charlotte, NC 28202

Customer ID: **3211**

Certificate: **55-C-0107**

Site: 002

Discovery Place Science

Type: ROUTINE INSPECTION

Date: 18-APR-2024

### 3.150(a)

#### Facilities, general.

\*\*\*There are three or more entry doors into the aviary that do not contain a secondary barrier to prevent the birds from leaving the aviary through the public entry doors when open. A secondary means of containment shall be provided at all entry doors into the aviary to prevent escape.

Correct by May 22, 2024.

### 2.40(b)(2)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

\*\*\*The current program of veterinary care does not provide any methods of disease prevention, parasitic control, or the frequency of sampling to be utilized by the facility to protect the animals from disease. General instructions should be included for the facility to provide appropriate methods to prevent, control, diagnose, and treat diseases and injuries and/or instructions for notifying the veterinarian to ensure the animals receive appropriate care.

Correct by May 10, 2024.

### 3.154

#### Environment enhancement to promote psychological well-being.

\*\*\*There is currently no written environmental enhancement plan for the birds. Exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides.

The plan, at a minimum, must address each of the following:

- (a) Social Grouping
- (b) Environmental Enrichment
- (c) Special Considerations
