Sanitation.

Housekeeping. There is some wire mesh in the upper pasture housing 5 goats, 3 sheep and 2 fallow deer. This same pasture has a pile of loose lumber on the ground on the left side of the animal shelter. Loose wire mesh and lumber in the upper pasture could injure the animals. Building and grounds must be kept clean and in good repair to protect the animals from injury. Licensee must maintain enclosures in good repair by removing loose wire mesh and lumber from the upper pasture. Correct by February 3, 2024.

This inspection and exit interview were conducted with the licensee.
