Contingency planning.

There was not a completed Contingency Plan available for review at the time of the inspection. The Contingency Plan is still under development and being prepared by the Licensee.

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession) and should have been in place by 7/5/22. The contingency plan requirement ensures that the animals receive proper care during emergency situations.

This inspection and exit briefing were conducted with facility representative.
