

## Inspection Report

---

James R Wheeler Jr  
20306 Hwy 71 S  
Greenwood, AR 72936

Customer ID: **332436**  
Certificate: **71-B-0212**  
Site: 001  
J R WHEELER

Type: ROUTINE INSPECTION  
Date: 13-SEP-2023

---

### 3.153(a)(1)(i)

#### Primary enclosures.

In three enclosures housing 2 blue and gold macaws, 2 Goffin Cockatoos, and 1 scarlet macaw, the wire mesh cage material is heavily chewed. In these areas there are multiple sharp wire edges protruding into the inside of the primary enclosure. Birds housed in enclosures with sharp points of wire are at risk of injuring themselves. Licensee should maintain primary enclosures in good repair with no sharp points or edges. Correct by 9-25-23.

### 3.158(d)

#### Cleaning, sanitization, housekeeping, and pest control.

In one primary enclosure housing one parakeet a dead mouse was seen in the bedding at the bottom of the enclosure. An unused feeding surface in the same enclosure had a large amount of rodent droppings present on the surface. The presence of mice and other pests in bird enclosures can expose food and water supplies to contamination and pose a health risk to animals in the primary enclosures. Licensee needs to maintain an adequate program of pest control. Correct by 9-25-23.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

COURTNEY JERNIGAN, VETERINARY MEDICAL OFFICER
