WILDLIFE IMAGES REHAB.& EDUCATION CENTER

Type: ROUTINE INSPECTION

Date: 10-JUN-2015

3.125(a)

FACILITIES, GENERAL.

Several fence post supports running parallel along the top of the north side of the outdoor black bear enclosure are showing signs of rot and structural compromise. These posts provide a frame work for the fencing that contains the black bears and need to be repaired or replaced to ensure a structurally sound enclosure. A regular schedule of review and maintenance needs to be in place and carried out to maintain all enclosures in sound condition.

Correct by: 31/July/2015

An exit interview was conducted with the facility curator

Additional Inspectors

Lundy Kendall, Animal Care Inspector

Prepared By: TOM LECROY, A C I USDA, APHIS, Animal Care
