

Inspection Report

The Lambs Farm Inc
Po Box 520
Libertyville, IL 60048

Customer ID: 2515
Certificate: 33-C-0034
Site: 001
THE LAMBS FARM INC

Type: ROUTINE INSPECTION
Date: 23-JAN-2017

3.125(a)

FACILITIES, GENERAL.

A large plastic wind shield is being chewed by the animals inside of their enclosure. The white plastic shield is in located inside of the barn containing 10 sheep, 15 goats, 1 cow, and 1 alpaca. The shield has been pulled away from the separation wall by the animals. The plastic, if ingested, could make the animals ill.

Repair or replace the wind shield to protect the animals from injury.

To be corrected: 1-27-17

3.127(c)

FACILITIES, OUTDOOR.

The outdoor area of the enclosure containing 10 sheep, 15 goats, 1 cow, and 1 alpaca is saturated with excessive mud and water. A thick layer of mulch was placed over the concrete (ground) in the outdoor area of the enclosure approximately 1 year ago. The animal traffic, combined with the winter weather, has turned the mulch into mud. Excessively muddy enclosures can make it difficult for animals to walk.

Remove the mud/old mulch and assure that a suitable method to rapidly eliminate excess water is in place.

To be corrected: 2-13-17

This inspection and exit interview were conducted with the farmyard manager.
